شکل 4.

Important information about your Google data archives

- Do not download your archives on public computers.
- It's important that you have control over your data. If you have the time, please [let us know](#) how we can improve.
- If you have decided to take your data elsewhere, please research the data export policies of your destination. Otherwise, if you ever want to leave the service, you may have to leave important stuff like your photos behind.

Archive of 1 Google product - 56.8 MB

Created on June 30, 2014
Available until July 7, 2014

Download this archive to your computer

Download each file to your computer. Keep these files safe since they contain your personal information.

Download chazm.t1harp@...-Mail.tgz - 56.8 MB
